# The Wesley Palliative Care Service...

## Philosophy

The Wesley Palliative Care Service operates within the philosophy of care of The Wesley Hospital and UnitingCare Health.

Our service is multidisciplinary, holistic and inclusive and values the human spirit in overcoming the burden of advanced incurable illness, regardless of the underlying cause. Further more, it provides patient and family centred care and access to community support as appropriate.

## Objectives

Our objective is to deliver appropriate comprehensive care with skilled palliative care staff, in an environment which focuses on the specific needs of patients and their carers.
